The Art of Living

Philips Modea Mirror TV with Miravision™

MODEA

The TV that reflects your style

Imagine a product that's not just your TV, but also a product that reflects your personal style.

Philips Modea Mirror TV with Miravision is a unique product that combines the practical qualities of a stylish mirror with the benefits of a high-resolution LCD television.

Positioned carefully in the interior design of your living room, your study or bedroom, this LCD TV will continue to delight you.

Philips Modea Mirror TV with Miravision is fully featured and incorporates the latest high-performance display technology and can display HDTV content for sheer viewing pleasure!

This product can easily be customized to your style in any room of your house, simply by changing the frame style and colour.

A total new product experience

In addition to watching TV or DVD's, it also functions as a PC monitor. It makes it possible for you to work, play games or simply browse the Internet.

Explore some of the other functionalities as the zoom function, picture-in-picture or the split screen option that enables you to display PC data while viewing video or TV in a window.

In short: If you are looking for a total new product experience with multiple functionalities and a highly fashionable design that 'lights up' every room, the Philips Modea Mirror TV with Miravision is what you are looking for!
